

Lash Lift FAQ

BENEFITS

Q. What are the benefits of a Lash Lift, or Upper Lash Lift & Tint?

A. Enhance your natural lashes!

- Perfect for those who desire the appearance of longer, curled lashes without the commitment to lash extensions.
- Minimize time spent on makeup application
- Select Upper Lash Lift & Tint for maximum impact and definition. *Due to the nature of the service, tint is only applied to the upper lashes.*

POST-APPOINTMENT

Q. What do I need to know to properly care for my Lash Lift post treatment?

A. Follow these recommended care instructions post Lash Lift for the first 48 hours:

- Avoid touching lashes.
- Using make-up removers.
- Exfoliating around the eyes.
- Retinols, Vitamin-A's, AHA's, BHA's, steroid creams or skin thinning creams.
- Exposure to water, sweat, and steam from showers, saunas, dishwashers or ovens.
- Sleeping on your face/side or wearing eye masks to prevent disturbing the lash shape.

MAINTENANCE

Q. What type of maintenance is recommended after a Lash Lift?

A. When wetting (after the initial 48 hours):

- Gently brush the lashes back in place.
- Use a styling and nourishing product on the lashes daily to maintain the health and condition of the shape.
- You may use any mascara on your lashes.

Q. How often do I need to have a Lash Lift?

A. It is recommended to refresh your Lash Lift every 6-8 weeks.
